Something is "off" with the appearance of this "new and improved" RFK Jr."

New York Times: Robert F Kennedy Jr. Sought to Stop Covid Vaccinations 6 Months After Rollout

★

Just like fellow Special Ops imposter "Elon Mask," **Robert F. Kennedy Jr.**, the new Health & Human Services Secretary, suddenly transformed, circa 2022, from a hard Lefty Globalist into a key extension of **Commander Trump** himself. The Troika of Trump,

or thwarting the multi-year lock-down scheme of the Globalists, the apparently *real* RFK tried to undermine his efforts. From the article:

"Robert F. Kennedy Jr., President-elect Donald J. Trump's choice to lead the nation's health agencies, formally asked the Food and Drug Administration to revoke the authorization of all Covid vaccines during a deadly phase of the pandemic."

"Just six months earlier, Mr. Trump had declared the Covid vaccines a miracle. At the time Mr. Kennedy filed the petition, half of American adults were receiving their shots. Schools were reopening and churches were filling."

Fortunately, RFK's efforts came to naught. We say, "fortunately" not because we believe that the absurd Covid Hoax was real, obviously -- but because Warp Speed was indeed *absolutely necessary* for thwarting the planned 5-7-year closure of most of the world economy -- a disaster which was to have been followed by a MANDATORY vaccine containing microchips as well as ingredients deadly to a significant percentage of the world's population.

For those who still haven't gotten over the raw emotionalism surrounding Warp Speed, a republishing of an ANYT piece first run in November 2020 may be useful.

Rebuttal by

November 2020: Though "The Editorial Board" of **The Anti-New York Times** continues to catch incoming flak (*some of it downright nasty & surprisingly personal*) for our recent defense of both Trump's strategically necessary (*for the normies*) pro-vax comments as well as our claim that the magic jab -- in spite of being totally unnecessary, based upon a hoax, and responsible for adverse reactions in some -- is NOT the mass genocide / "Georgia Guidestones" depopulation jab which the Globalist Cabal had originally intended to force upon all of us.

That's our position on "vax doom," and we're sticking to it. Hopefully, this presentation will ease the anxiety and anger some of "youse guys" are experiencing over Trump's repeated "pro vax" comments.

Let's analyze this article.

NY Slimes: When President Trump talks about efforts to deliver the coronavirus vaccine to millions of Americans eager to return to their normal lives, he often says he is "counting on the military" to get it done.

Analysis: All along, the central thesis of Q and "The Storm" has been that the military elements (*especially NSA, military intelligence & special forces*) loyal to America constitute our last line of defense against the Globalists.

NY Slimes: Mr. Trump has given the impression that troops would be packing up vials, transporting them from factories to pharmacies and perhaps even administering shots. In reality, the role of the military has been less public and more pervasive than this characterization suggests.

Analysis: The military's role has been "less public" and "pervasive" -- negative-sounding terms which reveal the Slimes' dissatisfaction with the military's control over "Operation Warp Speed."

NY Slimes: Scores of Defense Department employees are laced through the government offices involved in the effort, making up a large portion of the federal personnel devoted to the effort.

Analysis: Having so many White Hats "laced" within the project sure would make it kinda' tough to slip a poison "mickey" and a nano-tracking chip into the magic jab, one would think. No?

NY Slimes: Those numbers have led some current and former officials at the Centers for Disease Control and Prevention to privately grumble that the military's role in Operation Warp Speed was too large for a task that is, at its core, a public health campaign.

Analysis: The murderous Deep State scum at the CDC "privately grumbled" about the military's "pervasive" role in Op Warp Speed, eh? Boom! "Youse guys" starting to feel a little better now?

NY Slimes: Paul Ostrowski, the director of supply, production and distribution for Operation Warp Speed. He is a retired Army lieutenant general who was selected to manage logistics for the program by Gen. Gustave F. Perna, the chief operating officer for Operation Warp Speed.

Analysis: A "retired Army lieutenant" selected by an Army General who himself was appointed by Trump to oversee a military role that was so "pervasive" that it upset the CDC. Trump's trolling the Deep State? Seems that way.

Analysis. Patriots -- not the CDC, not Big Pharma, not Dr. Fauci, not the WHO, not the Bill Gates henchmen -- have been in control of the vaccine the whole time.

Here's some more reassurance from the **Stat News** story accompanying that headline posted above. The main punchlines are enhanced by us in bold and red for your convenience:

*"Operation Warp Speed is largely an abstraction in Washington, with little known about who works there other than its top leaders, or how it operates. **Even pharmaceutical companies hoping to offer help have labored to figure out who to contact.***

*Now, an organizational chart of the \$10 billion initiative, obtained by STAT, reveals the fullest picture yet of Operation Warp Speed: a highly structured organization in which **military personnel vastly outnumber civilian scientists.***

*The labyrinthine chart shows that **roughly 60 military officials – including at least four generals – are involved in the leaders of Operation Warp Speed,** many of whom have never worked in health care or vaccine development.*

Operation Warp Speed's central goal is to develop, produce, and distribute 300 million doses of a coronavirus vaccine by January – and the military is intimately involved.

*It has also set up significant cybersecurity and physical security operations to ensure an eventual vaccine is guarded very closely from "state actors who don't want us to be successful in this," **many of the Warp Speed discussions take place in protected rooms used to discuss classified information.***

***The military's extensive involvement in the development and distribution of a vaccine** is a departure from pandemics of the past, but it is fitting for Trump, who has gushed about his love for "my military" and "my generals."*

*One senior federal health official told STAT **he was struck by the presence of soldiers in military uniforms walking around the health department's headquarters in Washington, and said that recently he has seen more than 100 officials in the corridors wearing***

military personnel won't be familiar with the health resources available in a community," said John Auerbach, CEO of Trust for America's Health, a group closely aligned with public health departments. (Deep State players upset about the military takeover!)*

"They don't know who the doctors are or where the community health centers are located or what resources they have. They don't know where the pharmacies are. Public health people do know, that's part of what they do."

* Waaah! Waaah! Waaah! cried the Deep State when Trump's military took the vaccine process away from them -- and, at least in several known cases, may have substituted saline solutions ([here](#), [here](#) and [here](#)).

If some of anti-Warp Speeders who quit on Trump, quit on me and cancelled your subscriptions are still lurking, please consider the positive implications of this presentation as we head into 2021 -- and welcome back to the RHC / ANYT family!

Boobus Americanus 1: I read in the New York Times that RFK Jr. tried to stop Trump's vaccine 6 months after it rolled out.

St. Sugar: Trump'ss military vaccine ssaved your sorry ass, Boobuss -- but not in the way you think it did!

Editor: Think where we would be today if Satanist President Hillary Rodham had been able to appoint the people who would have controlled the mandatory vaccination operation.
